

European Cultural Interactions with Plants

(ANT 3930 / EUS 3930)

Instructor: Richard Tate **Email:** rwtate@ufl.edu

T Period 8-9 (3 – 4:55 PM) R Period 9 (4:05-4:55 PM)

- **Get out of the classroom for a hands-on experience growing European crops in a garden on campus!** Once a week, the class will meet at the UF Ethnoecology Garden to grow vegetables and herbs using traditional European methods.
- **Explore Europe’s rich mosaic of human-plant relations from a variety of perspectives!** Course readings will draw from anthropology, geography, ecology and other disciplines, offering a well-rounded view of the interactions between plants and people in this diverse region of the globe.
- **Develop professional and personal life skills!** In addition to sharpening research skills valuable for academia and the job market, students will “cultivate” the important life skill of gardening.
